## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Group I in the reply filed on May 23, 2008 is acknowledged.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 27-49 are rejected under 35 U.S.C. 102(b) as being anticipated by Schops et al (6235657), Shizuno et al (EP 0872206), Schierz (DE 19608378) or Claeys (WO 96/27039).

All of the above disclose a multi-layered fibrous structure where a central reinforcing fabric sheet has at least one layer of a randomly distributed strand layer (i.e. spunbonded or hydroentangled) thereon. Refer to the Abstract, along with column 2, lines 11-62, in Schops et al. Refer to reinforcing network sheet 2 and strand sheet(s) 3 on either side thereof in Shizuno et al. Refer to the English translation of DE '378 supplied by the applicant, along with the Test of the First Office Action in the Chinese priority application to the 371 priority application. Refer to pages 2-4 in Claeys. With regards to the properties per the dependent claims the examiner deems them inherent in the prior art since the prior art uses the same types of polymers for the multi-layered fibrous structure.
